TAMPERING WITH TELEGRAPH FIGURES.

A CARD FROM PRESIDENT ORTON-HE MAKES SOME CORRECTIONS, AND GETS THEM CORRECTED.

To the Editor of The Tribune. SIR: In THE TEIBUNE'S financial column of

the 17th I notice the following:

There are many good friends of the Western Union Telegraph Company who reason that inasmuch as the report of the Directors for the quarter ended June 30 plainly states that the sum of \$125,000 was received as a dividend on International Ocean Telegraph stock a dividend on International Ocean Telegraph stock belonging to Western Union, and imaginate has it is positively stated by persons in position to know the facts that said Company has never paid any dividend whatever upon its stock, it would seem that the officials of Western Union owe it to themselves to prove the truth of the statement in their report or satisfactorily explant it. the 17th I notice the following:

Will you kindly permit me to say concerning the above that, in a smuch as the statement of the Western Union Directors therein referred to has subsequently been confirmed by the President of that Company under oath, would it not be well for the anonymous "persons in position to know the facts" who selves known to the public before calling upon the Directors of the Company to furnish additional proof of the truth of that which has already been fully proven? In the financial column of the 18th the following ap-

peared:
The evidence of the Auditor of the Company given on last Friday is not favorable to a very strong buil movement in the stock, showing as it does that the Company's current earnings for the quarter ending June 39 produced barely about one per cent upon the stock, instead of 1½, as has been paid out for a dividend.

May Literapas, further, upon your space and patterns.

May I trespass further upon your space and patience to say : The evidence of the Auditor shows that the net profits of the quarter are about, \$735,000, whereas, to pay a dividend of 112 per cent requires only \$506,000; and after providing for one quarter's proportion of annual interest and sinking fund, there remains nearly \$100,000. I fear some malicious person has willfully imposed upon the temporary occupant of The Tement's agers in New-York and Washington. financial chair. Very respectfully, WILLIAM ORTON. Executive Office, W. U. Tel, Co., New-York, July 18, 1876.

[The gratuitous impertinence of the last sentence would warrant us in showing Mr. William Octon to the door without a hearing. The "temporary occu-pant of the financial chair" in The Tribunk has been in continuous charge of it not so very far from as many years as Mr. Orton has been in charge of the Western Union Telegraph. Perhaps he may be better able to decide, a year or two hence, whether that is to be regarded as a "temporary occupancy." This Editor is Mr. John F. Cleveland, the brother-in-law of Horace Greeley, a gentleman honorably known in every position he has ever filled, esteemed in New-York before Mr. William Orton was ever heard of here, and likely to be-well, as long as Mr. Orton is. He has won the repute he enjoys by understanding his own business, and minding it in example which it would, many times, profit Mr. William Orton to follow.

The statement in THE TRIBUNE of the 17th, to which Mr. Orton objects, was received from a protatnent Western Union Director. It is not THE TEIB-UNE's fault if the people who own Western Union tell one story, and its President tells another. But with all respect for the testimony of its "President under oath," we fail to find therein the same statement made in the report and of the 7th of June, when not under oath, namely, that the \$125,000 referred to was received as a dividend on the International Ocean Telegraph stock. It is possible that THE TERBUNE was mistaken in saying that this Company had never paid a dividend to its stockholders; but if it it is quite certain that it was not paid during the past two or three years. The facts seem to be that the million and a half capital stock of this Company, until recently, consisted of \$850,-000 of common stock and \$650,000 preferred or guaranteed 15 per cent stock; that the Company has redeemed its entire issue of guaranteed stock by the issue of common stock, share for share, and the payment of 25 per cent in cash as a benus for such exchange. The Western Union owned a little less than 5,000 shares of the guaranteed steck, which it has exchanged for common stock, getting the cash bonus of about \$125,000. This was so set down in the Western Union report of Jane 7. Instead of being a dividend, and so fairly applicable to the earnings of one quarter year, it was received as "boot" in the exchange of a better for a poorer security. The President of Western Union may call this "a dividend," but honest people call it the result of a doubtful trade

As to the Auditor's figures, they must speak for themselves. THE THIBUNE is not answerable for their accuracy. Here they are:
Mr. Van Every furnished the following exhibit, showing

expenditures for the months of April, May, and June, 1876, the mouth of June being estimated as to current expenses and construction: Surrent Expenses for Operating and Maintaining the Lines and

for Carrying on the Business of the Company, exclusive of

erty, same period.

seerved for one-quarter's proportion of interest
on bonds, and for sinking funds, same period.

136,576 90

Total \$2,025,500 59
The receipts for the same period were as follows:
Current caroings \$2,307,281 77
Amount from International Telegraph Company 125,000 00\$2,492,284 77

portions for sinking fund and interest .. 2,025,591

By the foregoing the receipts for the

as July 12), other payments and pro-

If this sum is not about I per cent on about \$33,780,000 of outstanding stock of the Western Union Company, it certainly is not 112 per cent. Even if the \$125,000 received from I. O. T. Co. be called earnings and considered as all ap-plicable to the last quarter, the balance will be \$466,784, a sum less than that required to pay a dividend of \$506,700 by nearly \$40,000. It is perhaps not worth while further to discuss this subject by way of guessing how near the exact thing may be the "estimates" of the Auditor of the "expenses for the month of June," but a single discrepancy between his exhibit to the Court and the President's report of June 7 is perhaps worth attention. The President said: "There

pose; while the exhibit of the Auditor says, "Construction for April, May, and June, \$75.985!" -We believe there is no sort of speculation or combination, or bull or bear movement, at present

has been expended for construction from

Jan. 1 to May 1, \$32,900;" and made

no mention of any other expenditure for such pur-

in Western Union; that the leading operators are all out of town, and that the brokers have pretty nearly shut up shop. Under these circumstances, it will be less easy for officers trembling for their places and so interested in deceiving their stockholders, to keep them from considering the truth by howling about "bear combinations," "stock-jobbing efforts to bear good securities," and the like.— Ed.]

HOW VOTES ARE TO BE MADE.

HOW VOTES ARE TO BE MADE.

From The Public.

The Republicans of Ohio and Indiana are going to have a hard flight this year. If noisy organs think otherwise, the capable managers know better, and this is the time for them to do that thing which will be found more effective than all others—to see that voters are supplied with good newspapers. A few thousand copies of a really able journal, sent directly to doubtful or wavering voters in each State from this time and the election, will do more good than hundreds of noisy meetings, with bands, theworks, processions, and heavy hils. The voters whose action is in doubt this year will be convinced by reasons rather than by the beast g of drams and the smell of burnit powder. One suggestion, however. It will do little good, with voters of that class, to send them a mere party organ. A paper of the butant partisan veriety, which indestriainately pulfs everything labeled Republican, and abuses everything and everybody labeled becaucitate, will observe that independent voters where it wits one. But a genuine newspaper, which publishes all the news, prints the truth about all sides, and discriminates fairly in its afterances respecting men and events, can doubtful voter, would transform a host of them into resolute defenders of the public faith.

Leaven Lie of the public faith.

LONDON, July 20 .- Sir Percy Burrell, baronet, | will probably be held at the Everett House. (moderate Conservative), Member of Parliament for Shoreham, is dead.

GENERAL CAMPAIGN NEWS.

MISSOURI'S DEMOCRACY. THE ACTION OF THEIR CONVENTION WISE AND LIB-ERAL-ITS RESULTS.

INT TELEGRAPH TO THE TRIBUNE. Sr. Lovis, July 20.-The more liberal, enlightened, and progressive Democracy of Missouri pride themselves on having achieved a decided victory over all other factions in the State Convention held yesterday and to-day at Jefferson City. Gen. John S. Phelps, the nomince for Governor, is an old resident of the State, originally from Connecticut, an officer in the Federal army during the late war, and a careful, prudent, conservative man; and there is every reason to expect an able and honest administration of State affairs at his bands. His chief competitor in the Convention was Col. George C. Vest, an exmember of the Confederate Congress, a man of con siderable brilliancy, and of good character with the people of the State on account of his personal merits and eloquence as a campaign speaker. Had not the party managers feared the adverse influence of his nomination on the National ticket he would probably have been selected as their standard-bearer in this State.

Ex-Senator Brockmeyer, the nominee for Lieutenant-Governor, is a imitted by all classes to be one of the best men in the State. Messrs, McGrath and Holliday, for Secretary of State and State Auditor respectively, are the present incumbents, and have ticket is equally unobjectionable in fact, and the Democracy have as good as secured a new lease of

The policy of the party thus far this season has been wisely framed and successfully carried out. It is asserted in Republican circles here that these results are in great measure attributable to consulta-

LIBERAL REPUBLICANS FOR HAYES.

ADDRESS OF ETHAN ALLEN, ANNULLING THE CALL FOR A NATIONAL CONVENTION AND SUPPORTING

THE CINCINNATI NOMINEES. The following address to the Liberal Republicans, annulling the call for a National Convention to be held at Philadelphia July 26 and supporting the Republican ticket, has been issued by Ethan Allen, Chairman of the National Liberal Republican Com-

NEW-YORK, July 20, 1876.

To the Liberal Republicans of the United States: On the 9th day of May last a meeting of the " National Committee of Liberal Republicans," having been duly called, was held at the Fifth Avenue Hotel, in the City of New-York. At such meeting 51 States were repre-sented. After due discussion it was unaulmously resolved to hold a National Convention of Liberal Republicans on the 26th day of July, 1870, in the City of Philadelphia, and a call for such Convertion was issued to the public, reaffirming the principles of the platform adouted by the Liberal Convention held in Cincinnati in 1872. Subsequently to this action by the National Committee, and without a dissenting voice, the following preamble and resolution were adopted:

and resolution were adopted:

Whereas, The hope is entertained by many patriotic citizens that by their continual agitation "within pariy lines" one or both of the dominant parties may be led in platform and heminess to grant all the political reformation required by the Liberal Republican organization; seed.

ion required by the Liberal Republican organization; and
Whereas, The Liberal party, desiring only the public good regardless of parties, does not favor causeless independent action, it is shall cerasinly appear that all which it seeks in the way of political purification can be as well secured through other organizations; therefore,
Resofted, That if after the Republican and the Democratic Conventions have been held in June next, one or both of these parties shall seem, in the indgment of our Chairman. Mr. Ethan Allen, to have responded to the principles and alms of the Liberal Republican organization both in measures and med, in that event our Chairman is hereby anionized after further contervince with toks Committee, by proclamation to must the call for a National Conventions, and their action being units orable to reform, our Chairman is composed in this such action in further githe call for a Liberal Conventions have ordered as he may deem necessary.

The Republican and the Democratic Conventions have

The Republican and the Democratic Conventions have both been held, and, as commanded in the above resolution, I have since conferred, by correspondence, with the members of the National Liberal Committee, and the response, which is in entire harmony with my own views, is almost unanimous to annul the call for the "Liberal National Convention" above referred to, and to approve in the name of the Laberal Republicans of the United States, of the nominations of Rutherford B. Hayes of Onto for President, and of William A. Wheeler of New-

York for Vice-President. It is a locical result of the Liberal movement that those who still adhere to it should at this time cordially apport Hayes and Wheeler. More decided than the olaiform upon which he stands, Gen. Hayes has personally declared for civil service reform, for the return to specie payment at the earlies; possible day, and for the ciple being found only in the Liberal Republican platform. The characters of the nominees guarantee the principles they profess. If the Liberals in 1872 sustained Hornce Greeicy, who was the foremost Republican of his day, because he was an unselfish patriot and an honest man, they must now sustain Gen. Hayes for the same reasons; and to do otherwise would be inconsistent action. The opposition of the Liberals has never been against the Republican party, of which they formed a part, but rather against those who, unformulately for it and for the nation, have had control of its destiny to its discredit.

The good results which have been gained by the inauguration of the Liberal movement of 1872 are matters of congratulation. It was then that the demand for reform was made against existing abuses by those who had before acted within the Republican lines. Subsequent events have more than confirmed the warnings of the Liberals then given, and have vindicated their efforts then made for national reform. Firmly maintaining their stand for the past four years, they have seen the independent voter" of all parties adopt their views, and at the eleventh hour they have seen the Republican party, in convention assembled, in entire harmony with the demands of the Liberals, disregarding the "machine politicians," so called, place in nomination men whose great distinction is that they are thoroughly honest as well as capable. The conscience of the nation, which, rising above party, revolted against the Republican organization in 1872, must now inderse this action.

The Liberal movement will be remembered as an evidence that when the hour demands it, the people are capable of making party managers subservient to their will. The protest, in defiance or party discipline, originally made at Cincinnati in 1872, is a proof that the citizen remains faithful to an honest discharge of his polit-

ical duties, though party leaders become corrupt. It only remains for me to declare, by virtue of the au-thority given me as above, that the Liberal Republicans of the United States, through their National Committee, approving of the nominees of the Republican party, the "call" for a "National Convention of Liberal Republi-cans," to be held at Philadelphia on the 26th day of

July, 1876, is annulied. ETHAN ALLEN, Chairman National Lib. Rep. Committee.

REPUBLICAN CAMPAIGN MEETINGS.

A ratification meeting of the XIIth Assembly District Republican Association was held at Liberty Hall, at No. 231 West Sixteenth-t., last evening. The hall was decorated with flags and portraits of Isneels, Hayes, and Wheeler. Hasson G. McCook, President of the Association, occupied the chair. Resolutions a proving the Circinnati nominations were adopted. Isaac Dayton, James Augell, Robert H. Randell, Robert H. Stranan, and Solomon O. Streeter addressed the meeting.

The ex-soldiers and sailors of the XXth Assembly

District met last evening at No. 1,065 Third-ave, and formed an organization to be known as The Soldiers and Sailors' Campaign Clat. A resolution was adopted which declared it to be the duty of every man who fought under the "old flag " to support, when worthy, for any office in the gift of the people, the men who fought to preserve the Union; the resolution also approved the emination of Butkerford B. Hayes. The following officers were elected: President, George W. Reed; Secretaries, J. A. Miller and M. J. Graham; Treasurer, Samuel Mc-Brise. Addresses were made by I. Albert Englehardt, Major Bullard, Major Missing, W. C. Reddy, and Robert B. Montgomery. The VIth Assembly District Republican Association has raised a Hayes and Wheeler hanner in front of its rooms at No. 397 Grand-st.

TILDEN AND HENDRICKS CLUBS.

At the meeting yesterday of the Committee on Temporary Organization of the Tilden and Hendricks Central Club, held at the office of the Chairman, Thomas Cooper Campbell, it was decided to recommend to Peter B. Ofney, the Chairman of the cinb, to call a general meeting on Wednesday evening, July 26. This meeting

The Tilden and Hendricks Association of the XVIIth Assembly District met at No. 475 Ninth-ave. last evening.

MEETING OF PROMINENT REPUBLICANS An informal meeting was held at the Fifth

venue Hotel on Wednesday evening, at which secretary Chandler, Chairman of the Republican National Conmittee, William E. Chandler of New-Hampshire, R. C. McCoranck of Arizona, and other prominent Republican politicians were present, and at which it was agreed to issue a call which was made yesterday for a meeting of the Executive Committee of the Republican National Committee to be held at the Fifth Avenue Hotel at 11 a. m., on Aug. 2. Secretary Chandler returned to Washington Wednesday overlang, and all the other members of the Committee except Mr. McCormick left the city yesterday. It is thought that no meeting of the National Committee will be held until after the meeting of the State Convention at Saratoga next month.

THE TANMANY HALL RATIFICATION MEETING Among these who have been invited to enjoyed part of the present admirable administra-tion of Gov. Hardin. They had no substantial oppo-sition in the Concention. The remainder of the July 25, the following have accepted the invitations: John Hancock of Texas, J. Proctor Knott of Kentucky, Charles E. Hooker of Mississippi, John K. Tarbox of Massachusetts, John D. Gordon of Georgia, Wm. Pingkney Whyte of Maryland, Samuel J. Randall of Pennselvania, Gilbert C. Walker of Virginia, Leon Abbett of New Jersey, Algernon S. Sullivan, Edward L. Gaul, August Belmont, Luke F. Cozans, and Wheeler H. Peckham of New York.

GEORGE F. HOAR DECLINES A RENOMINATION Boston, Mass., July 20 .- The Spy of to-morrow will publish a letter addressed to the people of the IX th Massachusetts Congressional District by Congress man Hoar, in which he says he shall not accept the office of member of Congress again, desiring to return to the practice of his profession. Mr. Hoar, at the close of the present term, will have held the office eight years—a term of service exceeded by only one representative from the disten-

MISSOURI DEMOCRATIC CONVENTION. St. Louis, Mo., July 20.-The Democratic Convention reass-moled at Jefferson City at 10 o'clock this morning. Henry C. Brockmeyer, a prominent German of St. Louis, was nominated for Licutenani Gover

CONGRESSIONAL NOMINATIONS. CINCINNATI, July 20.—The Democrats of the VIIth Onio Congressional District to-day nominated Henry L. Dickey. The Republicans of the Vth Ohio District to-day nom-

nated J. L. H. Long for member of Congress.

The Democrats of the IVth Indiana District nominated to-day J. D. New. CINCINNATI, Ohio, July 20 .- O. P. Davis was nominated for Concress by the Independent Greack Convention at Terre Haute, Indiana, yesterday.

GENERAL FOREIGN NEWS.

TURKISH AFFAIRS. BUCHAREST, Thursday, July 20, 1876.

The Minister of War to-day withdrew the bill mobilizing the reserves. LONDON, Thursday, July 20, 1876.

In the House of Lords this afternoon Earl Derby an-nounced that a small number of copies of the correspondence on the Eastern question would be distributed to-morrow.

THE SERVIANS AGAIN ACROSS THE TIMOR. LONDON, Friday, July 21, 1876.

The Standard's Widdin special says that the Servians

lost 2,000 killed at the battle of laver. They retired across the river Timok, but have since recrossed. Osman Pasha on Thursday annihilated 500 Servians who had occupied Novo Seilo. Λ few only escaped across the Danube.

FOUR THOUSAND TURKS ROUTED. BELGRADE, Thursday, July 20, 1876. The following is official: The priest Doutchitch roated 4,000 Turkish regulars on Wednesday near Kadosinge, driving them toward Nova-Varosch after a desperat engagement, lasting seven hours.

A Belgrade dispatch says the army has been organized into two great divisions. The Eastern division is under Gen. Tcheranyeff, with Gen. Leschjanin as s-coud in command. The Western division is under Gen. Olimpies, with Gen. Zach as second in commune.

A Vienna despatch says it is reported that the insurgents attempted to interrupt the railway near Sofia, but were routed by a battalion of Softas. The Vienna journals publish statistics showing that

6,564 houses were burned in the Philippopolis and Zatavrule of one jerm only for the Presidency-the latter prin- bazardjik districts during the Bulgarian insurrection. ters have been changest so that her lines aft are some by revolutionary emissaries to compel the people to jum the insurrection.

The Morning Post's special says that Gen. Ign-stieff icaves Constantinople on a month's furlough on Monday, by command of the Czar, who desires a personal explanation relative to Eastern affairs.

THE CONTEST FOR THE ELCHO SHIELD. Loxpox, Thursday, July 20, 1876. The Elcho Shield was won to-day by En-

gland, Scotland being second, and Ireland third. Each team was composed of eight men who fired 15 rounds each at 800, 900, and 1,000 yards, using any rifle they chose. The Scotch team included the following riflemen who are to take part in the American contest : Ferguson, Danlop, McVittle, Whitelaw, Rae, and Boyd. The Irish team included William and John Rigby, Fenton, Johnston, Smyth, Joynt, Goff, and Greenhill, who are also to take part in the American match.

The scores made at each range were as follows:
 England
 489
 490
 yards. 1,000
 yards. Tota.

 .479
 449
 455
 1,383
 Scotland was ahead after the firing of the 800 and 900

vard ranges, the total score being then as follows: Scotland, 1,007; England, 979; Ireland, 928. EX-QUEEN ISABELLA'S RETURN.

Madrid, Friday, July 21, 1876. Quesada, Martinez Campos, and Janovas del Castillo, will accompany the King to Santander, to receive the ex-Queen Isabelia. Splendid preparations ar making for her reception. Several frigates will meet the ex-Queen at St. Jean de Luz.

THE EXTRADITION QUESTION.

LONDON, Thursday, July 20, 1876. In the House of Lords this afternoon Earl Derby stated that he had ju-t received a communication from the United States Government. He said be could not state the contents of it, but that he had given a copy to Earl Granville, and had requested him to postpone hi motion calling attention to the extradition correspondence, as a discussion would inconvenience public busi-

Earl Granville said he had read the communication, and that his motion would not affect the negotiations of the two Governments; nevertheless, he willingly compiled with Earl Derby's request, and postponed his mo-tion until Monday next.

THE CLEVELAND IRON DISTRICT.

Losnos, Friday, July 21, 1876. The Standard this morning says that the rumors affecting the Cleve and from trade are now happily disposed of. The meeting of the frommasters at Cleve land yesterday was strictly private, but it is understood that it generally approved the scheme for converting the imperied concern into a limited liability company.

> JUDICIAL CONFLICT IN EGYPT. ALEXANDRIA, Thursday, July 20, 1876.

In consequence of the Government's refusal o permit the execution of judgments against it, M. Hackmann, President of the Court of Summary Justice declared in open court to-day that he would refuse to hear any actions whatever, and that he now closes the court. Great excitement prevails. The Judges are de-liberating upon the question.

THE FRENCH PRESS LAWS. VERSAILLES, Thursday, July 29, 1876. The Chamber of Deputies has decided to appoint a committee to codify the press laws.

FOREIGN NOTES.

Janetro and Bahia is again interrupted. London, July 20.-J. & G. Harris, Australian merchants who made an arrangement with their creditors last year, agreeing to pay in full, now announce their suspension. Their liabilities are given at \$1,500, 000. Their assets are estimated at \$1,000,000.

The St. Louis platform and nominees were approved, and the organization pledged itself to do its atmost toward the openion of Ti den and Hendricks.

A Titlen and Hendrick benner has been raised by the Democratic C mpaign Cub of the VIIIth Assembly District in front of No. 120 East Breadway.

The Twentieth Ward Tilden and Hendricks Campaign Clab of the XIII Assembly District held a meeting at Germania Half at No. 428 Eighth-ave, last evening, Resolutions were adopted arranging the present Ambinistration and approving the nominations of Tiden and Hendricks Delegates were elected to the German Bendricks. Delegates were elected to the German Ward Tiden and Hendricks beamer last evening, at Variek and Springests. The memoers of the Cab assembly District bed at No. 102 Prince-st., and with banners, transparencies, and muslc marched o the beadquarters at No. 217 Symra-st., where they were met by members of the Cab assembly District them and Hendricks Committee.

The Prench Democratic Clab of the Vth Assembly District to the German Bendricks and Symra-st. The members of the Cab assembled at No. 102 Prince-st., and with banners, transparencies, and muslc marched o the beadquarters at No. 217 Symra-st., where they were met by members of the Cab assembly District Committees, and the Tiden and Hendricks Chab and the Tiden and Hendricks Chab and the Tiden and Hendricks Chab assembly District to the Vina Assembly District Committees, and the Tiden and Hendricks Chab and the and 8 years. He also left three sisters, Mrs. Francis Lawrence, Mrs. Graham, and Miss Annie Garner. He owned a handsome Summer residence on Staten Island, and an elegant residence at No. 8 East Thirty-third-st. Last Summer he built the yacht club-house at Staten Island, expending \$23,000 upon it, and renting it to the New-York Yacht Club at a nominal price. He began to take an active interest in yachting in 1873, and bought the sloop yacht Vixen from Commodore Livingston, although he had been a member of the club for five years. The following Summer he bought the schooner yacht Magic from Rufus Hatch, and was very successful in the races, beating the Comet badly in the Fall. He then arranged for building the Mohawk, which was the largest and best fitted yacht in the club. She made her first appearance in a cruise to Cape May in July, 1875, Vice-Commodore Garner being then in command of the squadron.

> The Mohawk was built in the Spring of 1875 by Joseph Van Deusen, at the foot of North Ninth-st., Williamsburgh, on a model resembling the Columbia, which was esteened one of the fastest boats that ever belonged to the Club, and no expense was spared n making her all that means could procure. The very best material was employed, and great care and skill was given to her construction. The statistics of the craft are in part as follows: Length over all, 150 feet; length on deck, 144 feet; breadth of beam, 30.04 feet; depth of hold, 9.04 feet; length of center-board, 30 feet; draft of center-board, 21 feet; length of overhanging stern, 18 feet. Length of masts as follows : Mainmast, 96.05 feet ; maintopmast, 60 feet foremast 94.09 feet; foretopmast, 55 feet; main boom, 99 feet; foreboom, 39 feet; bowsprit outboard, 39 feet; jubboom, 24 feet; extreme length cowsprit, 42 feet The area of cauvas in square feet is an follows: Mainseil. 4,006; ballooustaysail, 4,300; squaresail, 3,975; bal leonsail, 3,850; foresail, 2,196; jib, 2,000; main all, 1,974; workingstaysell, 1,809; flying jab, 1,320; maingaffropsail, 1,000, making a total of 32,235 square yards of canvas. The vessel, it is said, is the largest enterbeard yacht.in existence. The night from the top of her club topsail to the water is 163 feet; from the he water to the main truck, 140 feet; and her length from the end of mainboom to the end of flying libboom

DESCRIPTION OF THE YACHT.

In making the Mohawk, seasoned timber of the very best quality was used throughout. White oak was used by the floor Hubbers, and the best locust and black mateck n the top frame. The deck stanchions are of locust, and the stern with its frame of oak. Georgian pine was ased in he plankshear, with walls of oak, and bottom planking of pine, with oak garboards. The centerboard trank is of solid cak to the waterime, with yellow pine above that point. Georgia pine was employed in the deck frame, with backmetack knees. iron being used for the knees below. The inside cellings are of pine, but mahogany was used for the partners, bills, and hatch-combings. The main saloon of the yacht is 28 feet square, lighted

by skylight 14 by 6 feet, and having standing room of 7 feet. The walls were constructed in panels, and are aderaed with paint age and mirrors. A bookease and fireplace on one side was neatly arranged before the mainmast, which it thus concealed. Furniture of a very elaborate description in the way of sofas, chairs, a piano, and sideboard adorn the room. There were three state-rooms on the port side, each of them nine by seven feet in size, having a bath-room adjoining. Rooms for the salling master, cook, and steward were arranged just forward of these apartments. There is also a kitchen 14 feet square, with all the newest cooking facilities, and rooms for the mates and boatswain adjoining. Further forward at the forecastle are berths for twelve men. On each side of the companionway are two other staterooms, each 12 by 8 feet The Vice-Commodore's state room measures 18 by 13 feet, and is on the starboard side of the center-board trunk and opens into a bathroom. Each of the state-rooms as supplied with hot and cold water and gas. Water tanks are placed amidship and are capable of carrying 1,500 gallons of water. The yacht's tomage is 346.72, and her cubic contents 21:594 feet. She carried three beats and a gig, which were made in New-London, Coun. Her rigging was of steel, and was manufactured in England. Her baliast is entirely of lead. Before coming out this season the vessel received slight alterations. Her dead-wood was carried further aft, making her somewhat longer on the keel, and her quar-Of these 5.643 belonged to Christians. Many were fired what finer. She also received a suit of copper. Her owner had withdrawn her from the racing field and used her enturely for pleasure. She has not been in any re-

THE CLUB HOUSE GIFT. # At the annual meeting of the New-York Yacht Club, in 1875, Mr. Garner proposed to creet a c-ubnouse, and furnish it for the uses of the Club at a nominal rent, and the proposition was at once heartily as cepted. Its construction was begun very soon after at Stapleton, Staten Island, in the center of the boat anchorage on the shore, being connected with the main land by a bridge and pler more than 400 feet in length. It was so constructed as to allow boats to pass entirely around the house, a stairway and landing place having been placed on the castern side for the convenience of yachts. The house itself is two stories high, with dome-shaped roof, hung at the sides with fancy colored awning. The top of the house is used as a veranda, where a splendid view of the bay is obtained. The first floor is divided into a reception-room, kitchen, wine-closet, and toilet-room, while on the second floor are two large dining-rooms with toilet-rooms for ladies and gentlemen. There are two large verandas facing Long Island. The roof is lighted at night by a large lamp placed at the summit of the dome, which serves as a signal and guide to yachts coming into the harbor through the Narrows.

OTHERS IN NEWACK.

CONFERENCE OF MUNICIPAL AUTHORITIES AND

In pursuance of a recent resolution of the Newark Aqueduct Board and an invitation from Mayor Yates, a large number of gentlemen representing th towns and cities east of the Orange Mountain united in a conference at the City Hall in Newark yesterday afternoon, for the purpose of considering the proposed plan of joint action in providing a common supply of pure and wholesome water for the entire section above mentioned. Among those present were Mayor Scidler of Jersey City, Mayor Egger and Council of Orange, Mayor Meigs of Bayonne, Prof. Cook, State Geologist, Gen. Egbert L. Velle of New-York, Engene Quackenbush of Jersey City, and Daniel Dodd, John McGregor, Peter S. Duryee, J O'Rourke, John C. Beardsley, Jerome E. Ward, Jabez Hayes, and T. T. Kinney et Newark. After an explanatory address by Mayor Yates, a resolution was adopted that "the Board of Managers of the Geological Sar, vey of the State of New-Jersey be requested to procure, at their earliest convenience and in the most thorough manner, all the information which may be necessary or useful in deciding this question of a water supply, statistical, topographical, and economical; that they be requested to report their information so secured to the Mayors of the cities of Newark, Jersey City, Paterson, Hoboken, Orange, Rahway, and Passale, who are hereby consti-tuted a commission for that purpose, the expense of procuring said information to be borne pro-rata, accord-ing to population, by the cities and towns in this neighberhood, who are willing to contribute for that purpose."

Mayor Meigs of Bayonne favored the object for which

Mayor Meigs of Bayonne favored the object for which the meeting had been cailed. Prof. Cook, the State Good the meeting had been cailed. Prof. Cook, the State Good of St., after considering the interest of the Morris Canal Company in the source of the various waters, said he was of the opinion that storage reservoirs capable of holding ten lines in oquantity of water required would not in the least interfere with navigation or manufacturing interests. The spenker and that the narrow valleys of the Banapo and Ringwood rivers made them admirably adapted for storage reservoirs. Such, also, was the case with the Pennonneck. On the Rockaway, at a certain point, a storage reservoir suld be built 600 feet above the sea level. He considered the question of cost of the logist importance. It was a question to be seriously to be seriously the sea level. He considered the question of cost of the reservoirs at the highest importance. It was a question to be seriously to the seaves where considerable whether it was better to seek a low level for reservoirs at the highest points and let the whole volume of water flow to the clies by gravity. Gen. Thomas W. Heart And Rain in Philadelphia, July 20.—The weather to reservoirs at the highest points and let the whole volume of water flow to the clies by gravity. Gen. Thomas W. Heart and the serious substitution of the point of the considered whether it was better to seek a low level for reservoirs at the highest points and let the whole volume of water flow to the clies by gravity. Gen. Thomas W. Heart and the clies by gravity. Gen. Thomas W. Heart and the clies of the promotion of Useful Manufactures, earnestly protested against any arrangement that would deprive the manufacturing catabilishments of Little Palla, Paterson, Dundee Dam, arrangement that would deprive the manufacturing catabilishments of Little Palla, Paterson, Dundee Dam, arrangement that would deprive the manufacturing and paters of the clies by gravity. Gen. Thomas W. During the day of the clies by gravity of the LONDON, July 20 .- The cable between Rio

and locomotion was made as if it were a thing not to be trifled with. In some respects yesterday was the hottest day this season. It started in the morning much like the day before, but the heat rose at noon to 92%, four degrees hotter than the previous day. At 3 p. m. it had fallen to 90°, the effect of the rain, but then the neat broke out again with redoubled intensity, and at 6 p. m. the mercury marked 93°. Only one day this year has it been hoffer than this at 6 in the evening; that was on July 9, "the hot Sunday," when the mercury reached 99° at that time, but by 9 o'clock of that evening it had fallen to 85°. while at 9 o'clock last evening it stood at 89°. No day of the year has been so hot at that hour. The temperature, with the humidity of the atmosphere, made existence almost unendurable. Such an experience saps the vitality even of the strongest, and the effects will be read in a lengthened list of victims. Yesterday the number of cases of sunstroke reported was greatly in-excess of the preceding day—greater than any day for a week.

James Barr, age 47, a Custom-house officer, of No. 305
West-st., was found dead in bed last night, from the effects

HIGH TEMPERATURE ELSEWHERE. RICHMOND, Va., July 20.-This has been next o the hottest day of the season, the thermometer ranging from 100° to 103° in the shade. Between 5 and 6 o'clock this evening a heavy thunder, lightning, and rain storm prevailed, accompanied by a considerable fall of hall, the mercury falling 23° in a half hour.

MILFORD, Penn., July 20.-The weather here to-day has been the hottest for 20 years, the thermom-eter registering 104 in the shade at 3 o'clock this after-

Washington, July 20.-The weather was exremely hot last night, and it was one of the most oppresave of the season. Numerous cases of prostration by the tent have occurred within the past 36 hours.

The following shows the state of the thernometer at 1:30 p. m. in the cities named: Buffalo, 90-Cincinnati, 96°; New-Orleans, 92°; Baltimore, 98°; Washington, 99°; Albany, 92°; New-York, 88°; Phila-delphia, 95°; Boston, 93°.

THE STORM.

GREAT DAMAGE IN RICHMOND, VA. RICHMOND, Va., July 20.-Wind accompanied a storm this evening, and was very severe. A number of houses were unroofed and otherwise damaged. Many shade trees in the city were stripped of their foliage and had limbs broken off. Seabrook's tobacco warehouse used during the war as a general receiving hos pital, had its southern section entirely demoli-hed, the sheds being lifted butily and carried into the streets. A large quantity of tobacco was damaged by rain. The less cannot now be estimated. Three persons were seriously injured at the warehouse. entire upper story of J. H. Dickerson & Co.'s suddlery establishment was carried away, and two per-sons were injured. The walls of the Third Presbyterian some were injured. The walls of the Third Presbyterian Church are reported in a dangerous condition from the storm. Several tobacco factories also sustained serious damage from being unrocfed, and having their stock exposed to rain. The high-raing artick in a number of places. The storm seems to have been entirely local in severity, as telegrams from several neighboring points report no signs of it.

PROPERTY DESTROYED IN PENNSYLVANIA.

fatally. About 8 o'clock this evening a heavy shower of rain, accompanied by thunder and lightning of a most of rain, accompanied by thunder and lightning of a most terrific character, set in, and lasted about an hour. The lightning struck several preminent points, but the damage caused was not serious. During the prevalence of the storm hall fell in the north western section of the city, and was particularly noticeable in the park. In an hour the thermometer fell 20°.

MIDNIGHT WEATHER REPORT.

For New-England and the Middle States, continued high temperature and partly cloudy weather dur-ing the day, followed by cooler weather, north-west to south-west winds and rising barometer during the evening. For the lower lake region and Ohio Valley, generally clear weather and lower temperature, northerly to westclear weather and lower temperature, northerly to west-erly winds, and rising barometer.

For the South Atlantic States, clear and warm weather will continue, with light southerly to westerly winds, and stationary or a slight rise in the barometer.

For the Gulf States and Tennessee, parily cloudy weather and local rains, with light east to south winds, and slight changes in temperature and barometer.
